Discoveri Education's XSEED is a contemporary education methodology that is constantly challenging the status quo of our education system. A comprehensive practical solution to teaching and learning, XSEED is designed to transform classroom teaching. It brings experience based learning to life through its integrated approach towards syllabus, teacher training and assessment. It makes it possible for each teacher to use innovative techniques in the classroom. Detailed, comprehensive lesson plans are supported with training for the teacher by skilled facilitators. The programme is offered for subjects Maths, English, Science and Social Science.
