iDiscoveri holds workshop on parenting

Savita Datta Menon, a clinical psychologist and a wellness specialist, has said that children, in the initial stages, learn everything from parents and teachers. Addressing 'Child of Tomorrow', a workshop on parenting, at Yogi Birla Children park here on Sunday, she said that parents and teachers could mould a child like a potter does with clay.

The workshop was organised by iDiscoveri for parents to realise the potential of their child. Ashish Rajpal, founder, iDiscoveri Education, was present.
