3rd Edition of iDiscoveri XSEED School

The conference in each city featured a panel of educationists, business and thought leaders who are determined to revolutionise classroom teaching in the country. The panel discussion on 'Better Resources or Improved Methods- What Matters Most for School Quality' witnessed participation from noted visionaries like Prof. Bhaskar Ramamurthi, Director IIT Madras; Andrew A. Hoover, Head of American International School, Dr. Geetha Iyer, Curriculum Specialist; Dr. Aruna Rathnam, Education Specialist, UNICEF and Dr. Debanjan Chakrabarti, Head English Interface - British Council India.

The third edition of the annual XSEED 'School of Tomorrow' Conference 2011, the biggest initiative engaging top education leaders, (11th Nov. 2011) witnessed pioneer educationists share a common platform to stress on the need for improving quality in education through investments in better teaching methods and processes. Under the theme of "Education beyond Boundaries", the conference saw participation from over 1500 school heads and business leaders across New Delhi, Chennai, Mumbai and Hyderabad.

Prof. Alison Gopnik, author of books on child psychology and a renowned researcher in the field of children's learning from the University of California, delivered a thought provoking key note address on cognitive abilities of children and highlighted the need of uninhibited exploration, experimentation and reasoning in the education space.

The first edition of School of Tomorrow in 2009 was an instant success witnessing discussions from educationists like Vineet Joshi, Chairman CBSE; Rajendra Pawar - Chairman NIIT. School of Tomorrow, 2010 was a resounding success with over 1200 attendees. Prof. David Perkins of Harvard University delivered the international keynote address. Other notable speakers included Prof. Peter Senge (MIT Sloan School of Management), Gurcharan Das (Writer and Ex CEO P&G) who discussed the need for change in thinking out approaches to learning and connecting with the needs of the society.
