Speaking on the occasion Anusup Nayak said, 'In these competitive times, we mark the hallmark of every classroom, it is a challenge to bring up child school stage in particular assumes more significance, since children start grasp of learning, which serve as a base for the rest of their student life.

More importantly, this is when they begin to form their perception of success. It is important for every parent to discover the child's true potential and guide Child of Tomorrow as a unique workshop that has been designed to give account of the child's strengths and weaknesses.

The workshop aims to go beyond the traditional 'Progress Report' route and go for the child that will enable the parent to understand the child better so it moulded accordingly. The workshop will involve a series of activities that has to become the ideal parent, and the child to become the ideal student.

These activities recognize the fact that all children are special in their own right the learning techniques that suit their way of learning. While parents will often good parenting, children will experience the XSEED way of experiential learning.

Child of Tomorrow will be a forum where iDiscoveri will leverage its under methods, vindicated by the enormous success of XSEED, a proven learning to schools across India and now touches 130,000+ children and 12,000 teachers.

In Andhra Pradesh, iDiscoveri's XSEED has been adopted by over 100 sch touching over 40000 children. Schools that have partnered with iDiscoveri Hyderabad Public School, Glandale Academy International, Nissaj Public S School, Pragati Vidya Niketan, DPS Vijayawada, Kennedy Nari Gen Kids Schools, Shree Gouthami Great School, and more.
