HOWARD GARDNER TO VISIT CITY ON FEBRUARY 3

DC CORRESPONDENT
HYDERABAD, JAN. 21

Dr Howard Gardner, father of the theory of "multiple intelligences," will visit Hyderabad on February 3 and 4, during his India tour.

Dr Gardner, professor of cognitive psychology at the Harvard Graduate School of Education, will tour a number of cities in the country between January 23 and February 7. He is considered one of the greatest education intellectuals alive.

Dr Gardner has been counted amongst the 'Top five Influential Business Thinkers' by the *Wall Street Journal* in the past and has authored 25 international bestsellers, including *Good Work and Five Minds for the Future*.

Expected to be the most significant thought leadership engagement of 2012, the Howard Gardner India Tour 2012, is being hosted by iDiscoveri Education. "Dr Howard Gardner had deep interest in India though he could not visit the country earlier, and he sees Mahatma Gandhi as the most important human being in the last thousand years, and his ideas are a key source of inspiration for Dr Gardner," said Ashish Rajpal, a former student of Prof. Gardner.
